3.1 The German Design Council will send registrants a written invitation to take part in the award. The letter contains a personal username (e-mail adress) for each registrant and, in the case of a nomination, a project ID for each nominated project. All projects can be registered to the award in the personal login area of the submission portal under submit.german-design-council.de/en-gb. Projects can be registered online following approval of the project details and after reading and confirming the General Terms and Conditions for the award.

Registration is binding and commits the registrant to complete payment of the relevant fees and costs. The German Design Council grants free cancellation of the registration if addressed in written form to gia@gdc.de within 14 days of the date of registration (the non-delivery of material for the project evaluation by the jury will not be considered a cancellation). After the expiry of the 14-day period, the fees/costs specified at registration and in section 6 are no longer refundable and the registrant's right to withdraw expires.

The registrant is authorised to carry out the registration process. The contract is concluded exclusively in digital form and is not exchanged in paper form.

In general, the German Design Council reserves the right, after internal examination, to deny participation in the award to projects that have not been nominated. The registrant of a non-nominated project will receive a written notification of the outcome of the examination. In the event of a negative notification, the legal contract between the registrant and the German Design Council will be cancelled. In this case, the registrant will not be charged any costs and fees for the registration. If payment has already been made, the transactions will be returned.

With the registration of a nominated project, the registrant is entitled to acquire the Nominee package for the fee listed in section 6 of these General Terms and Conditions and to use it immediately. With the registration of a non-nominated project, the registrant is entitled to acquire the Nominee package for the corresponding fees, but will only be granted access to the contents of the Nominee package after the registered project has been reviewed and a positive notification has been received. The Nominee package entitles the registrant to use the "Nominee 2027" label in connection with the registered project for his corporate com-munications and to order further marketing services at a charge. In the event of negative notification, the valid contract between the applicant and the German Design Council will be cancelled. In this case the applicant will not be charged the fees for the Nominee package. Any payments already made will be reversed.

In the event of an award, the registrant's details and those of the registered pro-jects will be used for the online publications, for the online gallery and for the production of the documents as well as other advertising material an will be processed in accordance with the legislator's privacy regulations. The German Design Council assumes no liability for incorrect or erroneous information.

3.2 The registrant may only submit digital presentations of the project for the jury session. The digital data can be uploaded via the link provided in the registration confirmation, or, with prior agreement, sent by e-mail to gia@gdc.de.

If the German or English project text is not available at the time of submission, the German Design Council will provide a translation, but accepts no liability for the content.

All data for the project must be marked with the provided project ID and these must be clearly visible on delivery. The loss and/or non-adjudication of unmarked projects shall be borne by the applicant. The burden of proof for proper labelling lies with the registrant.

3.3 The costs and all risks of transport for the delivery and removal of the registered projects shall be borne exclusively by the registrant. The German Design Council undertakes to inform the registrant immediately of any visible transport damage upon receipt of the projects. For projects delivered from abroad, the registrant must clear all necessary customs procedures at their own expense. The German Design Council accepts no liability for destruction, theft and/or damage for the duration of the projects' submission period. All necessary insurance should be taken out before registering.

All deliveries by carriers and/or delivery companies must be at ground level. A loading ramp is not available. If a supplier cannot unload a project independently and requires auxiliary material (forklift, pallet truck, or similar) for unloading, the client (registrant) accepts any costs incurred by the additional work. The costs will be invoiced to the registrant after the jury session. Projects in the Lighting category must be in working order for the jury session, fitted with a Euro plug and designed for use with 230 V power. If additional work (e.g. plug replacement, current transformer, etc.) is required for the presentation at the jury session, the registrant accepts any costs that could incur. The costs will be charged to the registrant after the jury session.

3.6 If the German Design Council is commissioned to assemble projects supplied in a disassembled state, the German Design Council assumes liability in accordance with the following regulation. The registrant undertakes to provide appropriate installation instructions in German or English. The same applies to the disassembly of the project for return transport. Liability for loss of or damage to the projects is excluded, unless the German Design Council, its legal representatives or vicarious agents are charged with intent or gross negligence; the German Design Council's liability for negligent conduct is limited to a maximum value of EUR 1,500.00, irrespective of the number of projects submitted by the same registrant.

The German Design Council shall not be liable for any damage arising during assembly and/or dismantling, unless an order has been placed. If a project is delivered disassembled and there is no order for assembly by the German Design Council, the German Design Council is entitled to assemble the project, but assumes no liability for damage incurred during assembly or disassembly.

3.7 The German Design Council recommends that the registrant take out all necessary insurance.

3.8 For registrants who have their registered office in People's Republic of China, Taiwan, Macao SAR or Hong Kong SAR,the operative implementation (control of the registration, handling of the projects, invoicing and receipt of payment for the German Design Council) will be taken over by their subsidiary, German Design Council (Shanghai) Co. Ltd, Shanghai, China (details under following section 12).

4. PREVENTION OF ACCIDENTS

If projects are usable or are exhibited or demonstrated in an operative state, they must comply with the statutory and trade association regulations in Germany, in particular the accident prevention regulations, and must be provided with the safeguards prescribed by German law. The registrant is solely liable for any damage caused by installed objects. The registrant must also indemnify the German Design Council without limitation against any claims for damages by third parties.

Any damage that occurs during the jury session must be reported immediately within one week to the German Design Council. A description of the damage, along with pictorial documentation of the damage, must be included.

The preceding list does not represent a ranking of the criteria and assessments for the jury. The jury's decision will be confirmed in writing. Any legal recourse is excluded.

If a released project has not been delivered to the jury session within the specified period, the jury reserves the right to use the project for evaluation on the basis of the released data from the registration in the submission portal (see section 3.1).
